Google Chrome Web Browser Extension Installation

Google Chrome Web Browser Extension Installation Installation Verify installation and enabling of extension

Installation

The Edit Document Opener Google Chrome extension is installed automatically with Edit Document Opener protocol application on Windows, Mac OS X and Linux. It is required by protocol application and must be enabled if you are using Google Chrome.

Important!

If Google Chrome Extension is manually uninstalled it will NOT be automatically reinstalled with protocol app installation, this is a Chrome limitation. You must manually <u>install the</u> <u>extension from Chrome Web Store</u>.

When opening Google Chrome first time after installation you will see a notification that a IT Hit Edit Document Opener extension was installed:
